

## About the survey

The 2018 Employer Survey was administered in October through November of 2018. Employers were identified through the college's job boards, experiential learning sites, graduate surveys, Office of Career Development contacts, career fair participation, and academic advisory committees. Mail and email invitations were sent and invitations were posted on the college's social media sites. In total, 70 responses were collected. 33 were "useable" responses, defined as those in which the respondent answered the set of questions on general learning outcomes. 29 were "complete," defined by the fact that respondents assessed both general and learning outcomes specific to their respective fields.

## Reasons employers say they are satisfied with their COTC graduates

Responsible

Good Work Ethic

Well educated

Motivated

Competent

Hardworking

Well Prepared
