

Central Ohio Technical College

General Education outcomes

Central Ohio Technical College is committed to providing each student with challenging and meaningful educational opportunities utilizing a holistic philosophy. The following general education outcomes are designed to encourage students to think critically, to grow academically and to engage culturally in their community, the nation and the world. Embedded into courses across the curriculum, these outcomes have a different emphasis depending on the course in which the student is actively engaged in the learning process. Ultimately, these outcomes enhance the content of the student's plan of study.

- 1. Students are able to read, write, speak, listen, and analyze the power of written and spoken words.**
- 2. Students make informed decisions using mathematical data and logical thinking.**
- 3. Students can use logical inquiry and problem solving strategies.**
- 4. Students can test and evaluate hypotheses.**
- 5. Students are aware of social and cultural differences.**
