Bilateral Articulation Agreement
May 15, 2015
Between
Central Ohio Technical College and Pickaway-Ross Career & Technical Centers
Digital Media Design Technology Media Design Technology

This agreement, entered into for the 2015-2017 graduates, is based on a review of the Media Design Technology program of study at Pickaway-Ross Career and Technical Centers and the Digital Media Design Technology curriculum and syllabi at Central Ohio Technical College.

Purpose of Agreement
This agreement is designed
• To encourage secondary students to pursue a postsecondary education,
• To reduce repetition of mastered competencies between secondary and postsecondary programs of study,
• To provide a smooth transition from secondary to postsecondary, and
• To reduce the cost of higher education for students and the state of Ohio.

Tech Prep articulation agreements recognize a seamless curriculum pathway that starts in high school to an associate degree that leads to careers in related technical fields. This agreement enables graduates of Pickaway-Ross Career and Technical Centers who successfully completes the academic and technical competencies required for the Media Design Technology program to receive college credit for certain courses in the Digital Media Design Technology associate degree programs at Central Ohio Technical College.
Eligibility Criteria

Students seeking college credit through this Tech Prep bilateral articulation agreement must meet the following criteria/requirements:

- The student must have completed the secondary Tech Prep competencies (academic and technical) relevant to the Central Ohio Technical College courses, with a grade of A, B, or C.
- An application and subsequent matriculation to Digital Media Design Technology at Central Ohio Technical College must occur within 3 years of high school graduation date.
- The student must meet all college entrance, general admission and program specific requirements and complete the COMPASS or ACT assessment. The COMPASS assessment is available, free of charge, through the Central Region Tech Prep Center.
- The student is responsible to inform college admissions personnel of his/her Tech Prep status and eligibility for articulated college credit and verify that appropriate documentation has been provided to the college by the secondary school.

Secondary School Responsibilities

- Secondary instructors are required to have the appropriate teaching credential as defined by the Ohio Department of Education.
- For the purpose of compliance with state, program or regional accreditation standards, Central Ohio Technical College reserves the right to review, validate and copy the credentials (e.g., college transcripts and resumes) of the instructors of articulated courses for external auditing purposes.
- The secondary instructor(s) will complete an Instructor Recommendation Form for each student upon graduation which will be maintained in the student’s secondary permanent file. An Instructor Recommendation Form must be submitted to the Records and Registration Office prior to receiving credit.
- The college and secondary school will develop methods of publicizing the agreement to encourage students to take advantage of seamless transitions and advanced placement opportunities.

Awarding of Credit

- There will be no charge for college credit awarded through this agreement.
- Student eligibility for technical or related credit is primarily determined by high school teachers evaluation based upon predetermined criteria set by the college. In certain cases, record of relevant student external certification, college proficiency testing, review of portfolios, or other forms of assessment may also be required.
- Placement in Central Ohio Technical College’s courses is determined by the student’s scores on the college’s required placement test(s). Credit is available only for the technical courses specified on the attached list of articulated Tech Prep courses.
- Articulated courses are recorded on the student’s permanent records after a student enrolls in and completes a non-articulated college credit at Central Ohio Technical College.

The administrators and faculty of the program at both levels pledge their commitment and support to continuing this relationship and to promoting these articulation opportunities to the students.
