### POLICY STATEMENT

Central Ohio Technical College’s primary concern is for the health, safety, and welfare of the college community. The college complies fully with local, state, and federal regulations regarding the sale, possession, and consumption of alcoholic beverages. The unlawful manufacture, possession, use, or distribution of illicit drugs or controlled substances on college property or as part of college activities is strictly prohibited. All members of the college community are held responsible for their behavior and for respecting the rights of others.

COTC endeavors to encourage a culture of compliance. The college is committed to providing education regarding the negative impacts of illicit drug use, misuse of prescription drugs, and the excessive or illegal consumption of alcohol. COTC provides programs, support, and resources to promote health-enhancing experiences. Additionally, COTC seeks to encourage responsible bystander behavior and timely reporting.

Please refer to the COTC College Code of Student Conduct for additional information for students and the Office of Human Resources Drug Free Workplace Policy 2.1.25 for additional information for faculty, staff and student employees.

### Purpose of the Policy

Under the Drug-Free Workplace Act and the Drug-Free Schools and Communities Act, the college is required to have an alcohol and other drug policy and distribute this policy annually to all employees and students. This policy must outline expected standards of conduct and consequences that may be applied by both the college and external authorities for policy violations. The law also requires that individuals be notified of possible health risks associated with the use and abuse of alcohol and other drugs, the college's prevention, education and intervention efforts, and sources of assistance for problems that may arise as a result of use.

### Community Resources

Employees and students may contact any of the following agencies for assistance. It is not a requirement that a person be first evaluated and recommended by a counselor. Individuals may contact these agencies on their own. Some agencies charge for their services. Do not let that deter you from calling. Many agencies have sliding pay scales. They can give a suggestion for alternatives too.
