

Business Management Technologies Program  
Action Plan to Increase Graduation Rates

1. Faculty maintaining close collaborative relationships with the Gateway staff regarding student recruitment and advising improvement. (New advising software initiating Fall of 2018).
2. Updating courses and plans of study (as needed) in order to remain current with workplace demands and requirements.
3. Ensuring all classes apply to a 2-year technical degree.
4. Creating additional certificates of value (when deemed necessary).
5. Analyzing assessment data and comparing the information to employer needs (review, analysis and updating will be completed per the BMT program assessment plan).
6. Faculty will work closely with staff in order to assist students with academic planning, scheduling and challenges they may face.
