Additional important information on the back

The information below is from the Knox Technical Center website:

Emergency Medical Technician

This course is designed to familiarize the individual with life-saving techniques in a pre-hospital setting as a member of a rescue squad, ambulance service, fire department, or as safety personnel in business and industry. Learners will gain insight into the diagnosis and treatment of the sick and injured, ambulance operations, hazardous materials identification and awareness, and the legal and ethical issues surrounding emergency care.

This 150-hour course is accredited through the Ohio Department of Public Safety, Division of Emergency Medical Services and follows the Emergency Medical Technician National Education Standards curriculum established by The National Highway Traffic Safety Board, The National Registry of Emergency Medical Technicians, and the State of Ohio, Department of Public Safety, Division of EMS, and the Ohio Administrative, and Revised Codes.
